#### **Chatham County Police Department Releases Strategic Plan Performance Report**

**Chatham County, GA (February 3, 2026)** – Chatham County Police Department Chief Jeff Hadley presented CCPD’s Strategic Plan Performance Report to Chatham County Commissioners at their bi-monthly meeting on Friday, January 30, 2025.

The report details the work the department has undertaken since the plan was implemented in 2020 to provide Chatham County with a well-trained, innovative, compassionate, hard-working, and transparent police force. It also outlines the next strategic steps the Chatham County Police Department will take to ensure this model of policing continues in the coming years.

“We have had many successes and have done a lot of good and important work since our department reformed eight years ago,” said Hadley. “None of that is accidental. Our strategic plan took months to craft and was the result of many conversations with the community. I am proud to highlight our achievements, and excited about what the future holds.”

The Strategic Plan Performance Report details advances in organizational operations and personnel, policies, community outreach, training, and equipment.
