Chatham County Enters the Readiness Phase for Tropical Storm Debbie

For Immediate Release

Chatham County, GA (August 4, 2024) - The Chatham Emergency Management Agency (CEMA) has entered the Readiness Phase (Operating Condition 3) and is closely monitoring Hurricane Debby. CEMA is currently coordinating response efforts with local, regional, and state agencies. In the next 24 hours, Chatham County could receive Tropical Storm force winds and heavy rainfall. Currently, Chatham County is under a Tropical Storm Watch, Storm Surge Watch, and Flood Watch.

The greatest impact to Chatham County will be the potential for historic rainfall, coastal flooding, 2-4 feet of storm surge, rip currents, severe flash flooding, and tropical storm force winds. Residents in low-lying areas should stay alert for possible flooding.

What you should do today:

- Secure loose items that could be affected by winds.
- Look around your home for any areas that could be affected by heavy rainfall. For example, take time to clear out your gutters and check for any debris gathering on your roof. Large amounts of debris left on your roof during a storm could cause your roof to weaken and leave you with a leak.
- Prepare for potential power outages due to wind and rain.
- Learn how to turn off the gas and electricity to your house and do so if flooding is about to happen.

Residents can sign up for CEMA Alerts at chathamemergency.org or text CEMA to 77295 to receive up-to date information as it becomes available. Residents are also encouraged to stay tuned to local radio or television for current weather information.
