President Street Railroad Crossing Elimination Study Initiated

For Immediate Release

Chatham County, GA (September 6, 2024) - Chatham County, in coordination with the City of Savannah and the Coastal Region Metropolitan Planning Organization (CORE MPO), is conducting a study to identify options for the elimination of the railroad crossing on President Street at its intersection with Truman Parkway.

The community is invited to join as at one of the upcoming meetings to learn more about both short-term and long-term alternatives, including grade separation options. Both meetings will be an open house format and will present the same information. Attendees will have the opportunity to provide feedback, which will be used to refine the proposed alternatives.

Tuesday, September 17, 2024
Frank Murray Community Center
125 Wilmington Island Road
4:30 p.m. – 6:30 p.m.

Wednesday, September 18, 2024
Mendonsa Hearing Room (MPC/CORE MPO)
112 East State Street
4:30 p.m. – 6:30 p.m.

The study will evaluate the existing and future traffic volumes and needs and the operation and safety conditions of the interchange to develop alternatives and costs to eliminate the at-grade railroad crossing. The study will consider freight, commuter and local traffic, and pedestrian/bicyclist travelers. The study will also account for current and future land use patterns and anticipated continued growth, especially for the industrial areas east of Truman Parkway.

More information is available online at [Chatham County Engineering website](#) or click for [overview of study](#).
