REQUEST FOR PROPOSALS

GENERAL CONDITIONS SECTION III

DESCRIPTION AND OBJECTIVES: Chatham County is requesting qualification proposals from qualified firms to perform *Concept Development, Engineering Design and Permitting and Post Design Construction Services for Improvements to the Parking Lot, Tennis Courts, Pickleball Courts and Basketball Courts at L. Scott Stell Park* which is located in Chatham County, Georgia. The County presents this “Request for Proposals” to describe its needs and those criteria which will be used to determine selection of services.

- 3.1 METHODOLOGY.** The procurement described herein is being conducted as a Request for Qualifications through professional services selection, a method of selecting professional services as provided in The Chatham County Purchasing Ordinance and Procedures Manual. This will be a three-step selection process, a summary of which follows:

STEP 1/ ACCEPTANCE AND EVALUATION OF PROPOSALS: All technical requirements, unless otherwise specified, must be met by the proponent. The goal of Step 1 will be to accept, evaluate and score qualification proposals that meet technical requirements and develop a “short list” (finalists) usually of no more than three firms that represent the best of all proposals.

–In the interest of a fair, objective and competitive process, Chatham County intends to accept all qualified proposals and give them complete and impartial consideration.

–Any proposal which does not meet all technical requirements may be disqualified as being non-responsive.

– Proposals which are deemed to be incomplete as to substance and content may be returned without consideration. Proponents whose proposals are not accepted will be promptly notified that they are not being further considered and why.

–Recommending proponents that best qualify for the short list will be done through a committee evaluation process based on established technical criteria as described herein. Final decision on the staff’s recommendation is made by the Board of Commissioners.

Do **not** submit a Fee Proposal.

STEP 2/INTERVIEWS: The evaluation committee **may** interview each finalist firm. If interviews are conducted, they will be scored. It will be at the discretion of the evaluation committee on the number of firms that will be interviewed. **NOTE:** Do **not** submit a fee proposal.

STEP 3/NEGOTIATION OF FEE/SCHEDULE: The highest rated firm will be notified and brought in to negotiate fee and schedule with the County. Prior to negotiation, the highest ranked firm will be presented, with any updates to, a “Scope of Work” to base its fee upon. If a negotiated fee cannot be reached with the highest ranked firm, the County will then enter negotiations with the 2nd ranked firm.

3.2 **PRE-PROPOSAL CONFERENCE.** An **AUDIO ONLY** pre-qualification conference will be held at **10:00 A.M. on MARCH 15, 2022**, Participants may attend by calling **1-888-585-9008**, then punch in the conference room code: **743-636-882**, to discuss the specifications and resolve any questions and/or misunderstanding that may arise. Firms attending remotely are asked to mute phones when not speaking, in consideration of others. **You are encouraged to call and participate.**

3.3 **PROPOSAL DEADLINE.** The response to this ‘Request for Proposal’ must be received by the Purchasing Division no later than **5:00 P.M., MARCH 29, 2022.** Any qualification proposal received after the time stipulated will be rejected and returned unopened to the proponent.

For good and sufficient reason, up to 24 hours before the advertised deadline, the County may extend the response schedule. Should such action occur, all proponents who attended the pre-qualification conference will receive an addendum setting forth the new date and time. This will be provided initially by oral message or fax and followed by written verification.

It is emphasized that late proposals will be rejected. Hence, all firms are warned that if they find they cannot meet the established due date that it is incumbent upon them to justify and submit a request for slippage of due date **at least 24 hours prior to due date for proposals.**

3.4 **WITHDRAWAL OF PROPOSAL.** Any proposal submitted before the deadline may be withdrawn by written request received by the County before the time fixed for receipt of qualification proposals. Withdrawal of any proposal will not prejudice the right of a proponent to submit a new or amended proposal as long as Chatham County receives it by the deadline as provided herein.

3.5 CONFIDENTIALITY OF DOCUMENTS. Upon receipt of a proposal by the County, the proposal shall become the property of the County without compensation to the proponent, for disposition or usage by the County at its discretion (except for as provided by Georgia law for proprietary information). The details of the qualification proposal documents will remain confidential until final award or rejection of proposals and/or protected under the restraints of law.

3.6 FORMAT OF RESPONSES. To be considered, proponents must submit a complete response to the request for proposals. The format for responses is presented in Section 2. All responses must be presented in this format, which will not be negotiable.

The response to the RFP must be submitted in 1 original and 4 copies to:

- 4.3 **EVALUATION CRITERIA (STEP 2).** Based on an evaluation of proposals under Step 1, those proponents that make the "short list" (finalists) may be interviewed. If interviews are conducted, they will be scored using the same process as the proposals. **(25 points possible)**

- 4.4 **DISCRETION.** The County shall have sole discretion in evaluating both the responses

and qualifications of the respondents. **Please note that the evaluation committee will recommend the firm with the highest score after all steps are complete, but it is the Board of Commissioners which, after consideration of staff's recommendations, makes the final contract award decision.**

- 4.5 **ASSIGNMENT.** The contractor shall not assign or transfer any interest in the contract without the prior written consent of the County.
- 4.6 **CONTRACT.** The successful respondent will be expected to execute a contract within 30 days of notice of award.
- 4.7 **PERFORMANCE AND APPROVAL OF SUB-CONSULTANTS.** The proponent will perform the project as an independent contractor and not as an agent or employee of the County. Joint ventures and sub-consultant arrangements are not prohibited; however, the proponent shall secure written permission from the County before subconsulting any part of the project. Such permission should be obtained during the proposal evaluation stage.
- 4.8 **CHANGES.** In the event a contract is awarded, the County may, at any time during the contract period, make changes within the general scope of the contract and its technical provisions. Any changes in the project team, including consultants, will require prior approval of the County. At the least, replacements must be equal in experience and preserve commitment to local or MBE participants. If any such change causes any increase or decrease in the proponent's cost of performing any part of the contract, whether changed or not changed by any such notice, an equitable adjustment shall be made in the contract price, or in the time of performance, or in both, and a written memorandum of such adjustment shall be made. Any claim by the proponent for an equitable adjustment shall be supported by detailed cost and pricing data, which the County shall have the right to verify by audit of the proponent's records or, at the County's election, by other appropriate means. Any claim by the proponent for an equitable adjustment shall be made in writing and prior to proceeding with the additional services or capital investments. The County may accept and act upon claims made later if, in the County's sole discretion, circumstances justify so doing. Nothing in this clause shall excuse the proponent from proceeding with performance of this contract in accordance with its original terms and conditions and any approved changes.
- 4.9 **TERMINATION OF CONTRACT.** The County shall have the right to terminate any contract to be made hereunder for its convenience by giving the proponent written notice 30 days in advance of its election to do so and by specifying the effective date of such termination. The proponent shall be paid for services rendered and not in question or dispute through the effective date of such termination. Further, provided a contract is awarded, if a proponent shall fail to fulfill any of its obligations hereunder, the County

may, by giving written notice to the proponent at issue, terminate the agreement with said proponent for such default. If this agreement is so terminated, the proponent shall be paid only for work satisfactorily completed.

- 4.10 ADEQUACY AND ACCURACY.** The professional and technical adequacy and accuracy of designs, drawings, specifications, documents and other work products furnished under contract, will be conducted in a manner of the profession. Where Chatham County must have work done by change order or addition resulting from an error or omission by the Engineer/Architect, the Engineer/Architect shall provide, at no cost to the County, all professional services attributable to the change order. This is in addition to the County's right to recover from the Engineer/Architect damages for the Engineer's/Architect's errors and omissions.

SCOPE OF SERVICES FOR

CONCEPT DEVELOPMENT, ENGINEERING DESIGN AND PERMITTING AND POST DESIGN CONSTRUCTION SERVICES FOR IMPROVEMENTS TO THE PARKING LOT, TENNIS COURTS, PICKLEBALL COURTS AND BASKETBALL COURTS AT L. SCOTT STELL PARK

L. Scott Stell Park is located on Bush Road in western Chatham County and is an existing multi-purpose complex which has been active for many years. Improvements and upgrades are needed to the tennis courts, pickleball courts, basketball courts and associated parking and other features to enhance the operations and upgrade the facility to provide an acceptable level of service. Preliminary planning for these upgrades has been completed by the Department of Parks and Recreation in coordination with the Department of Engineering.

Chatham County is now seeking a qualified engineering consultant firm or team to perform engineering design and permitting services associated with these improvements. These improvements will be at the direction of the Department of Engineering with input from the Department of Parks and Recreation. Funding for these improvements will be provided locally using SPLOST funds. The proposed improvements include:

- Resurfacing and upgrading the playing surfaces of the existing tennis courts (4) and basketball courts (4), and converting four (4) other tennis courts into regulation size pickleball courts. Consideration shall be given to re-align the tennis and pickleball courts to match the orientation of the basketball courts. The location of all of the courts needs to stay within the project limits shown on the attached map, however staff will consider alternate layouts during concept development to maximize site usage.
- Basketball courts shall be upgraded to a DreamCourt surface, or equivalent. Backboards shall be replaced with clear, acrylic material.
- Providing an open-aired roof/covering for the tennis courts, pickleball courts and the basketball courts. Design shall include ventilation (fans) and lighting, as needed.
- Pavement evaluation, including cores for the existing parking lot with recommendations to upgrade to a standard, typical asphalt section.
- Upgraded fencing for the courts, as required.
- Demolition of existing features, as required.
- Stormwater drainage design, as required.
- Landscape design, as required.
- Lighting re-design, as required.

The scope of services will be broken up into three phase: concept phase, design services and permitting phase and post design construction services phase. The phases will include but may not be limited to, the following:

Concept Phase

Utilizing aerial photography, consultant shall develop a concept level site layout plan for the four tennis courts, four pickleball courts and four basketball courts and parking. Consideration shall be given to adjusting the orientation of the tennis courts and pickleball courts to match the orientation of the basketball courts and to maximize parking. Renderings for the proposed roof/coverings shall be provided for each set of courts. Concept level construction cost estimates shall also be provided to develop a final project budget. The final, approved concept plan will be used as the base for engineering design for the project. The concept plan will be finalized with input from Engineering and Parks and Recreation.

Design and Permitting Phase

Based on approved concept plan, the consultant shall provide for a topographic and tree survey for the project area as defined by the Department of Engineering. The survey shall include a survey of existing utilities within the project limits. Using the approved concept plan and survey, the consultant shall develop preliminary construction plans for site/parking layout, court upgrades/reconstruction, stormwater management, lighting and landscaping, and roof/court covering for the project. Pavement cores shall be taken and a parking lot typical section shall be developed. Engineering and Parks and Recreation will review the preliminary plans and provide comments to selected consultant. Consultant shall incorporate all review comments into a final set of plans for bidding. Wetlands on the site were previously delineated under separate contract. It is expected that the proposed improvements will have no impacts on the wetland areas. However, if there are impacts, the consultant shall coordinate the work with the County's wetland consultant and shall prepare such exhibits as may be needed to obtain any permit required. The consultant shall provide all plans, calculations and forms necessary to obtain a Land Disturbing Activities (LDA) permit from the Department of Engineering, if required. The consultant shall ensure the plans meet all of the requirements for the contractor to be able to obtain building, electrical and any other permits required from the Chatham County Department of Building Safety and Regulatory Services. The consultant shall prepare technical specifications and other documents covering all aspects of the work. The consultant shall finalize construction plans suitable for use in bidding and construction. The consultant shall provide a list of items and quantities (blank bid tab form) for use in bidding and a final construction cost estimate for the project. The consultant shall attend pre-bid and pre-construction meetings to answer questions in regards to the project.

Post Design Construction Services Phase

The consultant may be asked to provide post design construction services during the construction period. If required, a separate scope and fee will be negotiated with the selected consultant. This work may include completed as-built and record drawings for the completed site.

ATTACHMENT I
Guidance Concerning Good Faith Efforts for Chatham County

I. When the County establishes a contract goal, a bidder must, in order to be responsible and/or responsive, make good faith efforts to meet the goal. The bidder can meet this requirement in either of two ways. First, the bidder can meet the goal, documenting commitments for participation by M/WBE firms sufficient for this purpose. Second, even if it doesn't meet the goal, the bidder can document adequate good faith efforts. This means that the bidder must show that it took all necessary and reasonable steps to achieve an M/WBE goal or other requirement of this part which, by their scope, intensity, and appropriateness to the objective, could reasonably be expected to obtain sufficient M/WBE participation, even if they were not fully successful.

II. In any situation in which the County requires a bidder to use the good faith efforts, it is up to the County to make a fair and reasonable judgment whether a bidder that did not meet the goal made adequate good faith efforts. It is important to consider the quality, quantity, and intensity of the different kinds of efforts that the bidder has made. The efforts employed by the bidder should be those that one could reasonably expect a bidder to take if the bidder were actively and aggressively trying to obtain M/WBE participation sufficient to meet the M/WBE contract goal. Mere pro forma efforts are not good faith efforts to meet the M/WBE contract requirements. We emphasize, however, that your determination concerning the sufficiency of the firm's good faith efforts is a judgment call, and meeting quantitative formulas is not required.

III. County officials may not require a bidder to meet a contract goal (i.e., obtain a specified amount of M/WBE participation) in order to be awarded a contract, when the bidder makes an adequate good faith effort showing. This rule specifically prohibits County officials from ignoring bona fide good faith efforts.

IV. The following is a list of types of actions which the County should consider as part of the bidder's good faith efforts to obtain M/WBE participation. It is not intended to be a mandatory checklist, nor is it intended to be exclusive or exhaustive. Other factors or types of efforts may be relevant in appropriate cases.

A. Soliciting through all reasonable and available means (e.g. attendance at pre-bid meetings, advertising and/or written notices) the interest of all certified M/WBEs who have the capability to perform the work of the contract. The bidder should solicit this interest within sufficient time to allow the M/WBEs to respond to the solicitation. The bidder must determine with certainty if the M/WBEs are interested by taking appropriate steps to follow up initial solicitations.

B. Selecting portions of the work to be performed by M/WBEs in order to increase the likelihood that the M/WBE goals will be achieved. This includes, where appropriate,

breaking out contract work items into economically feasible units to facilitate M/WBE participation, even when the prime contractor might otherwise prefer to perform these work items with its own forces.

C. Providing interested M/WBEs with adequate information about the plans, specifications, and requirements of the contract in a timely manner to assist them in responding to a solicitation.

D. (1) Negotiating in good faith with interested M/WBEs. It is the bidder's responsibility to make a portion of the work available to M/WBE subcontractors and suppliers and to select those portions of the work or material needs consistent with the available M/WBE subcontractors and suppliers, so as to facilitate M/WBE participation. Evidence of such negotiation includes the names, addresses, and telephone numbers of M/WBEs that were considered; a description of the information provided regarding the plans and specifications for the work selected for subcontracting; and evidence as to why additional agreements could not be reached for M/WBEs to perform the work.

(2) A bidder using good business judgment would consider a number of factors in negotiating with subcontractors, including M/WBE subcontractors, and would take a firm's price and capabilities as well as contract goals into consideration. However, the fact that there may be some additional costs involved in finding and using M/WBEs is not in itself sufficient reason for a bidder's failure to meet the contract M/WBE goal, as long as such costs are reasonable. Also, the ability or desire of a prime contractor to perform the work of a contract with its own organization does not relieve the bidder of the responsibility to make good faith efforts. Prime contractors are not, however, required to accept higher quotes from M/WBEs if the price difference is excessive or unreasonable.

E. Not rejecting M/WBEs as being unqualified without sound reasons based on a thorough investigation of their capabilities. The contractor's standing within its industry, membership in specific groups, organizations, or associations and political or social affiliations (for example union vs. non-union employee status) are not legitimate causes for the rejection or non-solicitation of bids in the contractor's efforts to meet the project goal.

F. Making efforts to assist interested M/WBEs in obtaining bonding, lines of credit, or insurance as required by the recipient or contractor.

G. Making efforts to assist interested M/WBEs in obtaining necessary equipment, supplies, materials, or related assistance or services.

H. Effectively using the services of available minority/women community organizations; minority/women contractors' groups; local, state, and Federal minority/women business assistance offices; and other organizations as allowed on a case-by-case basis to provide assistance in the recruitment and placement of

M/WBEs.

V. In determining whether a bidder has made good faith efforts, County officials may take into account the performance of other bidders in meeting the contract. For example, when the apparent successful bidder fails to meet the contract goal, but others meet it, you may reasonably raise the question of whether, with additional reasonable efforts, the apparent successful bidder could have met the goal. If the apparent successful bidder fails to meet the goal, but meets or exceeds the average M/WBE participation obtained by other bidders, County officials may view this, in conjunction with other factors, as evidence of the apparent successful bidder having made good faith efforts.

I acknowledge receipt of the Good Faith Effort guidelines.
